

A Taste Of GNC Consulting, Inc.

• HCM 9.1 Upgrade Specials •

GNC Consulting has been an early adopter of Release 9.1, educating our upgrade teams about the robust and comprehensive features in this new release. GNC has taken our proven upgrade methodology and hand-crafted packages to help your organization realize the advantage of upgrading to PeopleSoft 9.1. GNC has developed proven, specific upgrade paths to meet the needs of your organization, enabling you to be live and realizing the 9.1 benefits as quickly as possible. Choose from one of our standard Specials or contact us to build a Chef's Special specific to your organization.

All Upgrade Specials include:

Core HCM, Benefits Administration, North American Payroll, Payroll Interface, eProfile, ePay, eBenefits, up to 10,000 employees, Oracle or SQL database 60 gig, 5 customized delivered records, 10 customized delivered pages, 5 customized delivered menus, 40 SQR reports, 10 interfaces (AE or SQR), 50 PeopleCode programs, from Release 8.8, 8.9 or 9.0.

Special 1 \$175,000

Upgrade quickly to 9.1 with this by taking your current application and upgrade it as is. This will give you the opportunity to upgrade rapidly and then take your time to review new functionality and modules once the upgrade of your core system is complete and stable. Includes Talent Acquisition and Candidate Gateway from 8.9 or 9.0.

Special 2 \$225,000

This Special includes the same approach as the first Special and includes the upgrade of Talent Acquisition and Candidate Gateway from version 8.8.

Special 3 \$215,000

Take advantage of all the benefits with our first Special in addition to implementing new functionality with Succession Planning. Develop succession plans with and without Position Management and create plans for individual employees, job codes, and positions.

Special 4 \$225,000

Drive additional ROI with this Special by not only upgrading you core installation but implement eCompensation. Managers can use the enhanced self-service functionality to plan, fund budgets, allocate compensation, and approve multiple pay adjustments including base and variable compensation components such as cash, non-cash, and stock.

PeopleTools 8.5 Special \$30,000

Take advantage of the new 8.5 Web Interface without having to upgrade your current application. GNC will perform the initial installation with the first PeopleTools Upgrade, complete one test move to a development environment, and return once testing is complete to migrate the PeopleTools Upgrade to production.

Gratuity: If travel is necessary, reasonable travel expenses will occur

A Taste Of GNC Consulting, Inc.

• House Specialties •

GNC's experience with the PeopleSoft Enterprise HCM Suite reaches across 14 years of successful implementations. PeopleSoft Enterprise HCM is #1 in HRMS, Benefits, Employee and Manager Self-Service, Talent Management, Learning Management, HR Business Intelligence, has an award winning Payroll solution, and is enhanced even further in Release 9.1. We can offer rapid implementation methods that can reduce time to value and provide you with the ROI that your organization requires.

Implement eCompensation..... \$100,000

HCM 9.1 gives managers enhanced self-service functionality to plan, fund budgets, allocate compensation, and approve multiple pay adjustments including base and variable compensation components such as cash, non-cash, and stock.

Implement Succession

Planning..... \$80,000

HCM 9.1 gives you the ability to develop succession plans with and without Position Management and create plans for individual employees, job codes, and positions.

Implement ePerformance \$85,000

GNC will guide your organization through the implementation of ePerformance to quickly identify your high performers. Document, enhance and automate performance business processes. A standardized process will allow your executives to take consistent measurements of your organization(s).

Recruiting Solutions \$180,000

Candidate Gateway and Talent Acquisition Manager are well-established applications providing managers, recruiters, and candidates with the ability to participate in the recruitment process.

Benefits Administration \$180,000

Benefit Administration automates your benefits processing. With the implementation of Benefits Administration, your organization will reduce overall manual effort by your Benefits department, increase accuracy of your Benefits data and have the ability to produce employee specific enrollment forms for open enrollment and benefit eligible events.

Implement eBenefits \$85,000

GNC will guide your organization through the implementation of eBenefits to quickly take advantage of automating Open Enrollment and Family Status changes. Document, enhance and automate benefit business processes.

Gratuity: If travel is necessary, reasonable travel expenses will occur
